```
MemTest84 Deluxe Version 4.1
(C) 2014 HCI Design (http://hcidesign.com)
This is commercial software, and may not be redistributed.

RAM MAP
-----
Starting at 8MB, size=65536MB: write-back, count=1
Starting at 65536MB, size=312MB: write-back, count=1

Installed RAM segments as reported by BIOS. Some BIOSes report more (or less)
segments than installed DIMMs. In addition, memory mapped devices will also
show up here, but will not be tested by MemTest84. What is shown here should
never be smaller than the amount of RAM installed on your machine but could
be larger due to memory mapped devices.

Preparing and pre-testing memory...
Running fast write tests...
Finished quick serial tests 0.9:
Running copy tests 0.19:
Finished copy test 19
Memtest Speed: 1064/4.0: 345.23 (higher = better)
Full testing of RAM begins now - turn off machine or reboot to end.
Run to at least 100% coverage for a basic test,
run to 100% coverage for a thorough test,
or overnight for an extremely thorough test.
Note: Any errors found will be reported immediately.
-----
18% coverage, 0 errors [#####]
```
